PRESS RELEASE

ROSS CONTROLS® Announces Expansion to Pendant Control Valve Product Line

TROY, MI – August 2020 – ROSS CONTROLS® is very pleased to announce the addition of High Flow Pendant Valves with optional Protective Covers. The new Pendants have a wider range of valve/lever stroke for improved operator control. The new Pendants are designed for use with Air Hoists, Air Motors and Air Winches in comparison to Lift Assists and Air Balancers applications for the original Pendant product offering.

Established in 1921, ROSS is headquartered in Troy, Michigan and is ISO certified. ROSS designs and manufactures pneumatic valves, control systems, and is universally recognized as a global leader in fluid power safety solutions and poppet valve technology. ROSS provides standard products and customized ROSS/FLEX® solutions for machinery and automation. Selling to original equipment manufacturers and end-users throughout the world, ROSS reaches its global customer base through manufacturing and distribution facilities located in the United States, Germany, France, United Kingdom, Japan, China, Brazil, India, and Canada. In addition to its direct sales team, ROSS markets its products through a worldwide network of more than 100 distributors.
