This seminar is organized by Workplace Safety & Prevention Services (WSPS) and the ISSA-Section Machine and System Safety.

WSPS is a not-for-profit organization committed to protecting Ontario workers and businesses. A proud partner in Ontario's occupational health and safety system and a trusted safety advisor since 1917, WSPS has a rich history of making Ontario workplaces safer. WSPS serves the manufacturing, agricultural and service sectors. As the largest health and safety association in Ontario, we support over 167,000 member firms and 4.1 million workers.

Seminar

Functional Safety and Validation

May 26-27, 2022

Toronto

About the Seminar:

The objective of the seminar is to give an overview about some international standards for machinery safety and their application. These standards provide manufacturers of machines the basic technical rules for the design of safe machinery. The seminar is intended to transmit the participants the basic knowledge of these standards and their use in the industrial area. The seminar also shows practical application examples. The speakers give information as experts involved in the standardization machinery safety.
